

DRUM/BARREL PUMPS

TEFC MOTORS

NEW

Introducing New TEFC & Explosion Proof Drum Pump Motors

FEATURES

- Powerful 1,000 Watt continuous duty universal motor
- 0 – 12,000 rpm speed
- Variable speed TEFC and explosion proof versions feature solid state control with chemical resistant touch pad for precise fluid dispensing and superior motor protection against overload and over temperature
- Ten selectable speeds can be easily ramped up and down by holding button plus motor recalls last running speed when powered on
- LED lights provide useful user feedback about the motors state
- Zero voltage release feature prevents motor from turning back on after a power failure
- Optional lower cost, non-solid state, single speed version available for TEFC motors
- Quick connection of motor to tube with unique collet design (threaded connection for HVDP Series) – no tools required
- IP55 design provides superior protection in corrosive, damp or dirty environments
- Chemical resistant thermoplastic exterior with ergonomic molded handle
- Downdraft cooling directs corrosive vapors away from the motor
- 115V/60 Hz or 230V/50/60 Hz for worldwide operation
- RoHS Compliant
- 12 foot (3.5 meter) cord with plug (TEFC models only)
- Made in the U.S.A.
